SCHOOL AGE CHILDREN

Our childcare program is a child-driven program providing security, stimulation, support, limits, and affection. Children are respected as individuals and are free to choose from age-appropriate activities such as arts and crafts, creative and dramatic play, board games, organized sport activities, quiet times for reading, and free play.

PRESCHOOL AGE CHILDREN

This preschool age program is centered around the thought that through nurture, love, and structure, children can grow, develop, and learn at their own pace. This program will offer your child age-appropriate activities to promote growth and development in four fundamental areas: emotional, social, physical, and intellectual.

RATIOS

State licensing requires the following adult-to-student ratios:

School Age: 1:18

4-Year-Olds: 1:12

3-Year-Olds: 1:10
